

# Prerequisites for creating Oracle ERP Cloud Connection

1. Subscribe/ Access to Oracle Fusion ERP Cloud preferably with Integration User/ Service Account
2. Obtain Oracle Fusion ERP Cloud URL along with credentials.

***https://<Oracle Fusion ERP Cloud POD>***

3. Assign following roles to Integration User/ Service Account in Oracle Fusion ERP Cloud in Security Console.
  - i. **Integration Specialist** – *It's a Job role which inherits Oracle ERP Cloud roles but doesn't include any data access*
  - ii. **AttachmentsUser** – *Provides access to the Attachments Security which enables user to download log/ output file using ERP Integration Service. This role automatically shipped but need to be verified.*
  - iii. **SOAOperator** – *SOA Operator Role*
  - iv. **FND\_MANAGE\_CATALOG\_SERVICE\_PRIV** – *To manage web services catalog*
  - v. **Module/ Functionality/ Object specific (GL, AP, AR etc.) Job roles along with data access for the concerned security context.** *e.g. General Accounting Manager with data access to US Primary Ledger for Data Access Set security context (Refer Security Videos for further details)*

\*\*\* preferably create a Custom Integration Specialist role to include all the roles mentioned above

# Prerequisites for creating Oracle ERP Cloud Connection

5. To subscribe to Fusion Business Events and FBDI Callbacks,  
Register CSF Key (IdentityDomain and OIC Service Instance Name) under Manage Security of SOA composer in Fusion SaaS

***https://<Oracle Fusion ERP Cloud POD>/soa/composer***

6. To access REST Catalog through Oracle ERP Cloud Adapter,

## **Step 1:**

- a) Go to Setup and Maintenance -> Manage Profile Options
- b) Create a Profile Option by giving following information:

Profile Option Code: ORACLE.BC.REST.IGNORECATALOGERRORS

Application : Application Toolkit

Module : Application Toolkit

Description : If a catalog describe fails for a particular resource, log an error and proceed with other resources.

Start Date : (current date)

Enable at User Level

- c) Click on save and close
